ABSTRACT

This Critical Issue Bibliography (CRIB) Sheet focuses on resources to help a higher education institution create a multicultural climate. Because creating a multicultural climate is a combination of many factors, this annotated bibliography describes resources on recruitment, retention, climate issues, teaching and curriculum, organizational values and structure, and faculty and staff development. The bibliography includes 38 references, all of which are in the ERIC database. (SLD)

What is an ERIC CRIB Sheet?

A Critical Issue Bibliography (CRIB) sheet is a selected bibliography on a topic of interest in the field of higher education. The majority of the literature cited in the bibliography is found in the ERIC Database, though some CRIB sheets also include other literature, such as selected Internet resources. CRIB sheets are updated annually.

Many of the issues discussed in one bibliography relate to another CRIB sheet topic. For example, the CRIB sheet on affirmative action is closely related to the CRIB sheet on creating a multicultural climate on campus. We have tried to note such connections in the bibliographies themselves; we encourage you not to see CRIB sheet topics as discrete and to explore several bibliographies on related topics.

This CRIB sheet was updated in December 2001.

Critical Issue Bibliography (CRIB) Sheet: Creating A Multicultural Climate

Creating a multicultural environment is a priority for most college campuses. Many people conceptualize this issue purely in terms of numbers of students or faculty of color -- essentially recruitment. Others tend to focus on the curriculum and infusing a wider representation of perspectives. However, creating a multicultural environment is a combination of recruitment; retention; climate issues; pedagogy and curriculum; organizational values, culture, and structure; and faculty and staff development to name a few key components. Our multicultural CRIB sheet series provides resources in all of these key areas, with each CRIB sheet focusing on resources in a particular area. In this CRIB sheet, we explore the changes necessary to create a multicultural climate.

ERIC documents (references with ED numbers) can be read on microfiche at approximately 900 libraries or can be purchased from the ERIC Document Reproduction Service by calling 1-800-443-ERIC. Publications with EJ numbers are journal articles and are available at libraries or through interlibrary loan. They can also be purchased from Ingenta, an article reproduction vendor, by calling 1-800-296-2221. ***CRIB sheets are updated annually; please contact us for an update or visit our Web site for the most current version.***

EJ516443

Norman, Kay F., & Norman, James E. (1995, Winter). The synergy of minority student persistence and faculty renewal. *Innovative Higher Education*, 20, 2, 129-40.

A proposed strategy for colleges and universities to increase the academic persistence of minority group students begins with faculty renewal efforts that encourage faculty to question their cultural beliefs, examine how diversity affects teaching and learning, foster more collaborative classroom interactions, maintain high academic expectations, and acknowledge diverse learning styles and individual differences.

EJ508621

Montero, Janina. (1995, Spring/Summer). Safe space or separation? Mediating the tension. *Educational Record*, 76, 2-3, 37-40.

Discussion of diversity on college campuses examines ways in which institutions can address the separation of groups on campus and resulting dissention. Nine recommendations are made for mediating the dissention, including study of campus climate, administrative flexibility, better understanding of the groups and dynamics

involved, reestablishment of leadership priorities, encouragement of trust, promotion of dialogue, and inter-institutional communication.

ED404900

Grayson, J. Paul. (1994). *A characterization of areas of racial tension among first year students: A focus group follow-up to a large survey*. Toronto, Ontario: Institute for Social Research.

This study looked at the racial tensions and attitudes of first year students at York University in Ontario. The study also looked at self-assessment and the first year experience as it differed by race and ethnicity.

ED381066

Adams, Howard G. (1994, September). *Creating a campus climate that supports academic excellence*. Notre Dame, IN: National Consortium for Graduate Degrees for Minorities in Engineering and Mathematics, Inc.

This paper discusses the campus climate as a critical element in the academic development of college students, with emphasis on minority and women students pursuing engineering and other technical degrees.

EJ505359

Edgert, Penny. (1994, Spring). Assessing campus climate: Implications for diversity. *New Directions for Institutional Research*, 81, 51-62.

Theme issue: "Studying Diversity in Higher Education." It is proposed that a better understanding of campus climate may be a critical element in enhancing college and university diversity. Methodological issues associated with this form of institutional research are examined, and studies undertaken at Stanford University (California), the University of California at Berkeley, and the University of California at Los Angeles are described as illustrations.

EJ477873

Brown, Charles L. (1993, Winter). Multicultural programs: A campus assessment by employees and students. *CUPA Journal*. 44, 4, 1-7.

A survey of staff, faculty, students, and administrators at one southern university investigated attitudes concerning introduction of an intercultural awareness program in student affairs. Widespread support for the program was found, with most pointing to the college president as having a primary leadership role.

EJ461457

Johnsrud, Linda K. (1993, Spring). Women and minority faculty experiences: Defining and responding to diverse realities. *New Directions for Teaching and Learning*, 53, 3-16.

Theme Issue: Building a Diverse Faculty. Based on a review of recent literature, demographic patterns and trends of female and minority college faculty are outlined and faculty perceptions of their experiences in academe are described. Three propositions concerning incentives, rewards, and college climate are offered for institutions striving to enhance and support a diverse faculty.

EJ459821

Tierney, William G. (1992, November/December). Cultural leadership and the search for community. *Liberal Education*, 78, 5, 16-21.

Four strategies that college leaders can use to encourage a sense of community are offered. The strategies, focusing on the campus culture, involve allowing conflict to be heard and examined, emphasizing cultural rather than managerial leadership, honoring differences, and creating awareness of differences in others.

EJ454590

Hurtado, Sylvia. (1992, September/October). The campus racial climate: Contexts of conflict. *Journal of Higher Education*, 63, 5, 539-69.

An examination of data from several studies investigated White (n=1,825), African-American (n=328), and Chicano (n=340) college student perceptions of campus racial climate and institutional commitment to cultural diversity. Student demographic variables were considered. Results indicated common and distinct views concerning the environment types associated with racial tension.
